

Smart Cities are Safe Cities

Hitachi Connects Data for Insight, Awareness, and Better Public Safety

CITIES ARE SAFER WHEN DATA CREATES VISIBILITY.

Cities are increasingly using intelligent technology to connect public and private stakeholders with the goal of making cities smarter, safer and more sustainable. How real-time data is connected and used to take smarter actions will play a key role in improving public safety, and making our cities smarter.

THE PROBLEM AND SOLUTION

Too Many Disparate Systems

Too Many Disparate Systems

1 CAPTURE DATA

By integrating video feeds, event data and other sources such as social media on a single pane of glass, Hitachi Visualization Suite provides real-time information and insight. We bring this all together on an easy-to-use map.

2 TRANSMIT DATA

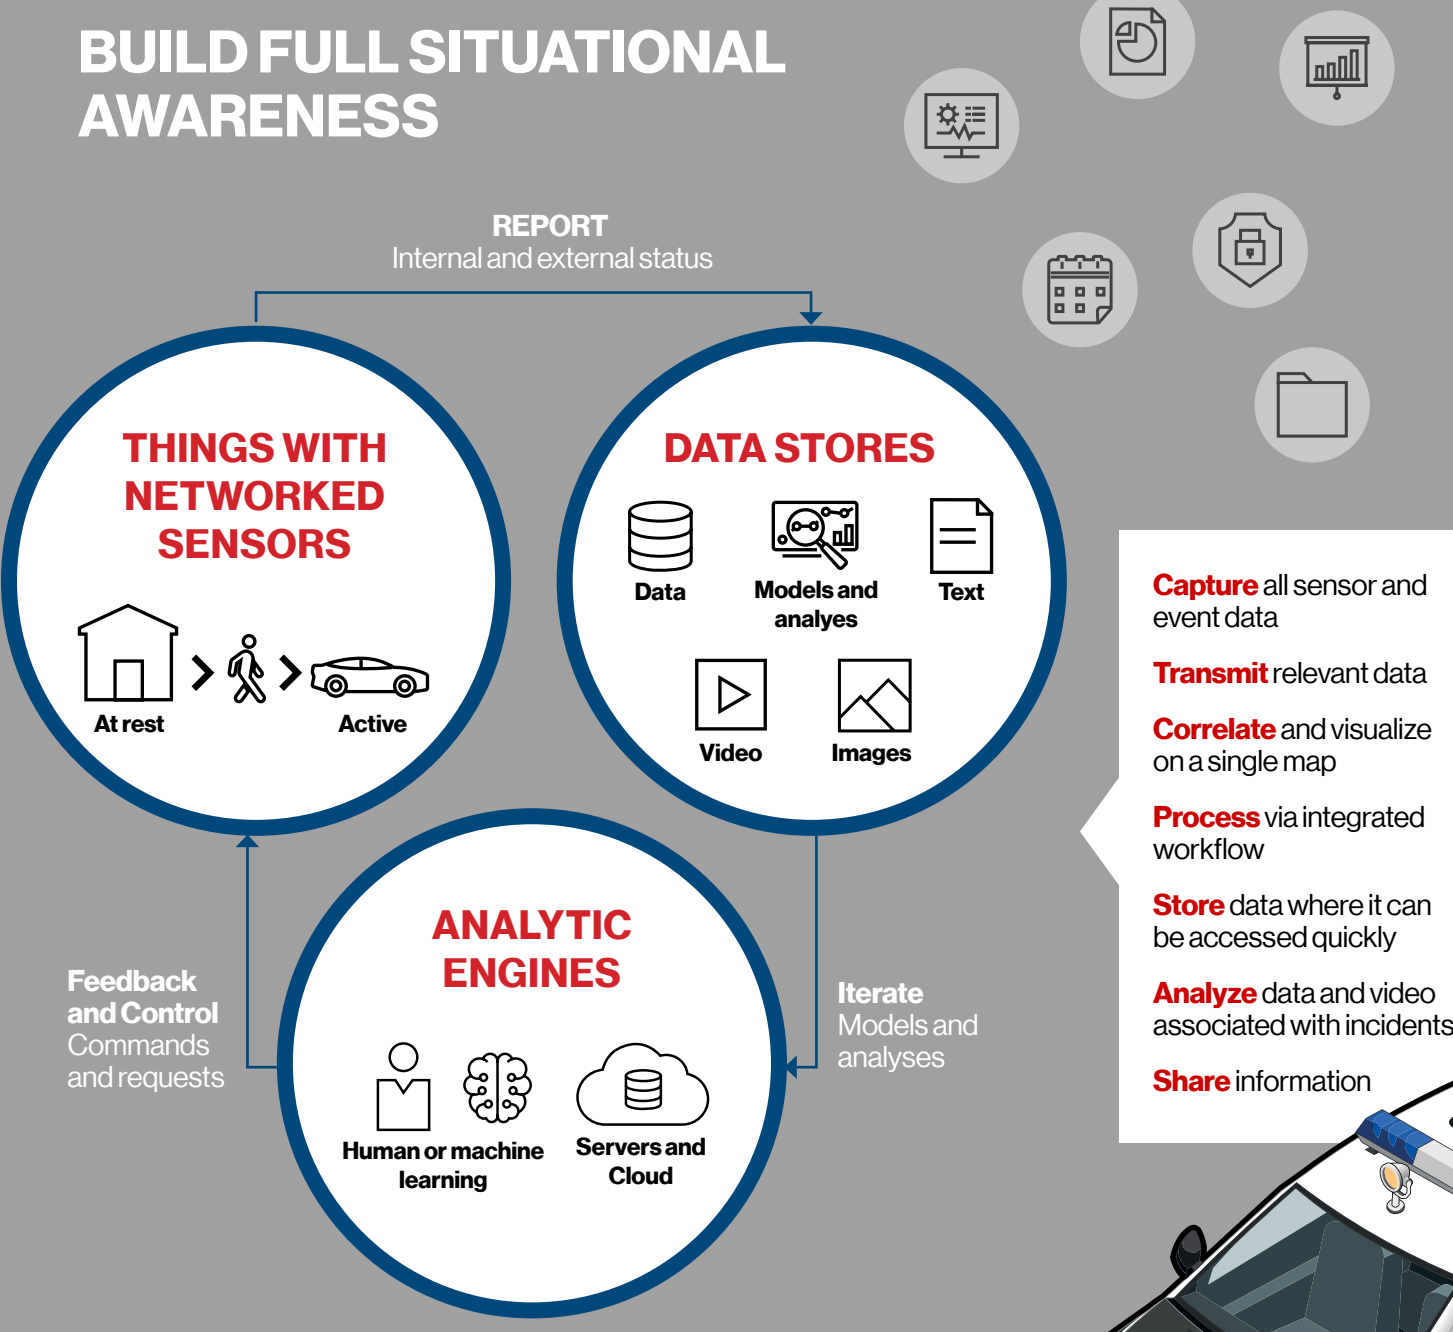

3 VISUALIZE EVERYTHING ON A SINGLE PANE OF GLASS

HOW IT WORKS

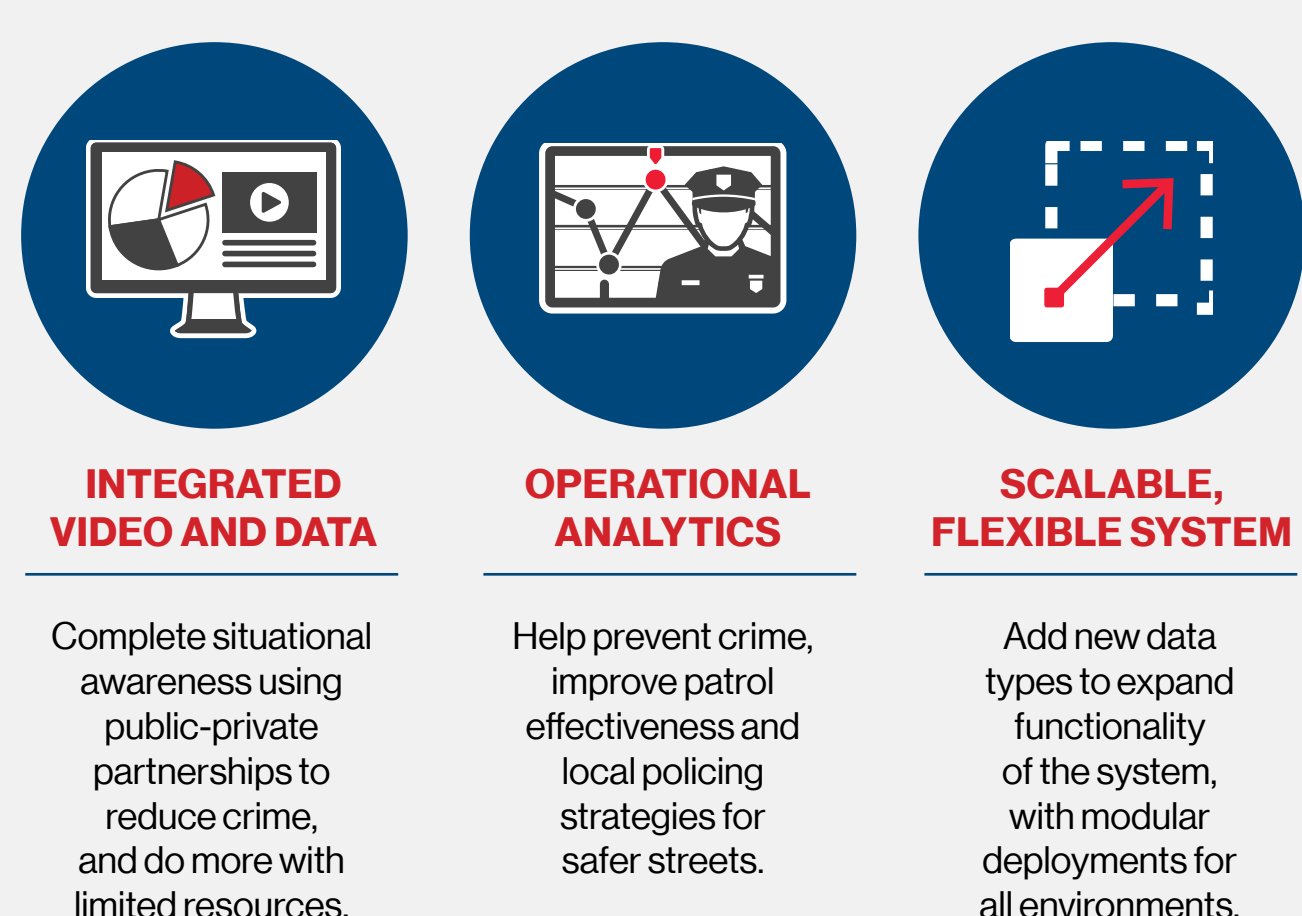

BUILD FULL SITUATIONAL AWARENESS

THE BENEFITS:

SMARTER PUBLIC SAFETY FOR SAFER STREETS

Integration of public safety systems with third-party, private-entity camera systems encourages private and public entities to join forces to fight crime. Hitachi Visualization solutions support this integration and teamwork for safer, smarter and more efficient communities.

Hitachi Visualization is a comprehensive, intelligent, end-to-end solution designed for safe city, smart city, and operational systems:

- Connects disparate video, data and public safety systems on a single platform.
- Delivers real-time, map-based visualization and analytic insights.

ABOUT HITACHI VANTARA
Hitachi Vantara, a wholly-owned subsidiary of Hitachi Ltd., delivers the intelligent data platforms, infrastructure systems, and digital expertise that supports more than 80% of the fortune 100. To learn how Hitachi Vantara turns businesses from data-rich to data-driven through agile digital processes, products, and experiences, visit hitachivantara.com.
