

SOLUTION BRIEF

# Cloud Modernization for SAP Environments from Hitachi Vantara

## Accelerate Your Migration to Cloud

As organizations transition from outdated ERP systems to ERP in the cloud to be more agile and responsive to market needs, RISE with SAP, which includes SAP S/4HANA Cloud and other core elements, becomes an obvious choice. While there are clear advantages to moving to the cloud, most clients will need third-party expertise with the right skills to migrate to a new cloud environment.

Cloud Modernization for SAP Environments from Hitachi Vantara is designed to help you make your transition to SAP S/4HANA Cloud and RISE with SAP effortless with a bullet-proof migration plan. Whether you plan to transition completely to cloud or take a hybrid approach and leverage existing or new on-premises infrastructure for some applications while moving other applications to the cloud, we can help build and implement your cloud strategy depending on your business needs.

## Experience All the Benefits of Cloud Modernization with Hitachi Vantara

- Remove the complexity and risk of migrating to SAP S/4HANA Cloud and RISE with SAP by working with an experienced team that specializes in cloud modernization for SAP environments.
- We will assess your current environment and define a smooth migration and/or upgrade plan to safely move your SAP workload to S/4HANA Cloud. With more than 1000 SAP projects delivered and more than 2500 SAP consultants globally, you can rely on Hitachi Vantara to help you with a smooth project.
- Exclusive Hitachi Vantara accelerators for SAP internet of things (IoT), SAP Business Technology Platform (BTP), SAP Analytics Cloud (SAC), and Hitachi Edge in a Box enable faster implementation of SAP solutions.

## A Holistic Approach to Modernizing Your Infrastructure

Cloud Modernization for SAP Environments from Hitachi Vantara includes the following:

- Cloud assessment services to inventory all existing applications, not just SAP applications, that are ready for cloud and recommend the optimum cloud platform for your SAP workloads.
- A global design and migration and/or upgrade plan, based on requirements gathered from in-depth planning workshops, to architect your road map that is aligned to your business priorities and timelines.
- SAP S4/HANA Cloud services based on SAP best practices, including an in-depth audit and governance of all your data assets and applications.
- A thoughtful change management methodology to ensure that your organization can embrace your journey to cloud and drive adoption of new processes.
- Streamlined transition to Application Maintenance Services (AMS) for helpdesk support, training, and enhancements.

## Maximize the Value of Your SAP Technologies and Investments

Cloud Modernization for SAP Environments from Hitachi Vantara is part of Hitachi's complete SAP portfolio of solutions and services. With over 20 years of experience as a global SAP customer, partner, and advisor, we help add value to your SAP investments by optimizing the digital core. We unleash the power of the cloud and extend the digital core with machine learning, analytics, and robotic automation — for smart, connected operations. We understand your business challenges and can help simplify your approach to deliver the outcomes you need.

## WE ARE HITACHI VANTARA

Hitachi Vantara solves digital challenges by guiding you from what's now to what's next. Our unmatched industrial and digital capabilities benefit both business and society.

**“Our environment with 3rd party tool integrations could be becoming complex, difficult to manage, and inflexible to support the business needs. We needed an environment that would help us monitor our accounting, purchasing and sales management business functions more effectively. Plus, we wanted to leverage the cloud to help us scale. Hitachi Vantara helped us implement our systems to SAP on AWS and ensured our integration with the 3rd party tools worked smoothly, avoiding any interruptions to the business. In implementing our environment to AWS, we have increased the availability of our business operations, ensuring business continuity through speed and agility. As we continue to use SAP on AWS, our teams are starting to think differently to scale business operations profitably.”**

Fukami Kohsuke, Senior Manager, UACJ (Thailand) Co., Ltd.
